Conclusions

The third study visit was organized with the aim of capacity building of the Serbian partners. All the planned activities were carried out.

The objectives of the study visit were achieved:

- During the presentation and practical advices for writing learning outcomes, the partners had the opportunity to receive more information about the development of curriculum in cooperation with the partners from the industry.
- During the visit of the company operating in the field of WM, the partners were familiarized with the complete process of the waste treatment carried out in the visited facilities. Required specific skills and knowledge were pointed out.
- The partners were updated on the achieved results, outcomes of all WP, and ongoing activities.
