25. Septembar 2018

The final conference of the WamPPP project was held at College of applied technical sciences in Nis - the grant holder of the project. The final conference was realized in accordance with the plan of activities at September 25, 2018. The participants of the all project partners except partner P6 attended the meeting. P1, P2, P3, P4, P5, P7, P8, P9, P10, P11, P12, P13. In addition, representatives of FIN, University of Kragujevac, prof. Ivan Mažučić, attended the final meeting.

After the welcome speech prof. Boričić, expressed her great satisfaction that after three successful years of cooperation and achieved results within the WamPPP project, we meet at the same place from where everything started. Prof. Boričić introduced the attendees with the agenda and events that will follow the closing ceremony of WamPPP project in the period from 25-27.09.2018.

In accordance with the agenda Dr. Miloš Ristić in front of partner P1, presented the results of the project for the period from Oct. 2015 to Sep. 2018. During the presentation Dr. Miloš Ristić, generally spoke about all realized activities of partner P1. He presented all aspect of archived results and point out a importance of project results sustainability. In the Name of Partner P2 the results were presented by professor Branko Savic. Prof. Savic point out on their results in the field of training, ie, activities 2.3 and 5.4. The partner P2 created ten training courses. In the name of partner P3, colleague Tijana Matejić presented the results. She specifically referred to activity 2.2 as well as to activities 2.4 and 5.4. She also introduced the participants to the commercialization plan of laboratory. In front of the P4 partner, Dr. Aleksandra Grujić presented the results. Prof. Grujić pointed out in particular the specificity of their laboratory, as well as the interest of industry for cooperation and common use of laboratory resources. Finally, prof. Vesna Alivojvodić presented the results achieved by the P5 partner in the previous three years of realization of the WamPPP project. Prof Alivojvodić put a specific focus on the realization activities 2.2, 2.4 and all WP4.

Finally, the representatives of partner P1-P5 gave a brief an overview of the achieved activities according the project documentation, where each outcome is separately analyzed from the view point of the quality achieved results. Also they exchanged their opinion about

In the second part of meeting, the representatives of partners P7-P13 gave their views and evaluation from their point of view of achieved results in the past period. Representatives of the partners P7-P10 especially referred to the results of the development package WP2, as well as the structure of accredited study programs. It was concluded that the study programs were created in accordance with the requirements of the labor market. The goals and outcomes of study programs are clearly defined. In addition, the course structure is clearly defined. Particular emphasis is placed on the importance of emphasizing applied knowledge, which students should acquire through mastering the content of content. The issue of professional practice is analyzed from a different aspects: organizational aspect, quality of lecturers and employees in the company that are in charged by the company of the realization of internship, the content of practice and the applicability of its results in the preparation of final, specialist or master works.

A special review is given to the potential contribution of industrial trainers.

The attendees noted that the National Council for Higher Education of Serbia did not adopt a unique national model for the implementation of professional practice.

In the final part of the meeting, the attendees have an opportunity to see a detailed description of Re @ WBC - Enhancement of HE Research Potential Contribution to the Further Growth of the WB Region, as part of interproject coaching activity (6.3). Guest of this meeting prof. Dr. Mažučić from the University of Kragujevac, presented the results of the Re @ WBC. The overall objectives of this project were examined through the development and implementation of mentoring programs, the definition of a set of incentive measures for the promotion of research work and the streaming of a set of policies through a guide for young researchers. The structure of the project is quite similar to the structure of WamPPP. This particularly refers to the structure and organization of the so-called. General packet work groups (Quality, Management, Dismantling, and Sustainability). Through a joint discussion, a series of qualitative procedures and activities were implemented in Re @ WBC. Whose application can be improved and help sustainability of the results of the WamPPP project.

At the end of the meeting, prof. Dr Dejan Blagojevic, who presented the conclusions related to the results of the project. Through the review of the so-called. " Added values of WamPPP ". Prof. Blagojević presented in detail all the results and pointed out the possibilities for further development and improvement of the situation in the field of waste management based on the achieved WAMPPP results.

Meeting was closed at 15:00h
